always lounge chair

design

An easy form for an easy chair, the Always Lounge chair hides its complexity well. A very careful combination of shapes have created a lounge chair that is very comfortable and looks great from every angle. Always lounge chair is available on 4 different base styles and being an upholstered product it is a true chameleon – frankly there is no reason to not have an always lounge chair.

technical

Always Lounge is meticulously upholstered to ensure the cover will remain neatly tailored to the product. Always is upholstered over an engineered foam core over a steel frame for firmly affixing all 5 different base options. There are 3 base options made from polyester powder coated steel, also available with a bright chrome finish. The timber base is constructed in solid oak. *All dimensions quoted are rounded to the nearest 5mm or nearest 1/2 inch.
